INTRODUCTION

The tables in this Annex are based on data submitted by agencies in their annual training report to the Civil Service Commission for Fiscal year 1968. The figures reflect instances of participation in formal classroom training of eight hours or more.

The first table (Tab A) summarizes all training activity and expenditures during the year. The next group (Tabs B through H) reflect various aspects of this data broken down by agency. (Where the name of an agency does not appear on a given table, the agency reported a zero for the particular item of data.) Tabs I, J, and K show the manpower and salaries devoted to training in each agency, and relate the manpower figure to the agency's total employment. In the final group of tables, the data on participation and expenditures reported by each agency is presented in full.

No attempt has been made here to analyze or interpret any of the data, this has been done, however, in Employee Training in the Federal Service, Fiscal Year 1968, and this annex should be used in conjunction with that report. Copies of Employee Training in the Federal Service, Fiscal Year 1968 have been distributed to Executive Officers of agencies, Directors of Personnel and key Training Officers. Additional copies (as well as additional copies of this Annex) are available through the Government Printing Office.
